

Atharva Patil

Profile

Efficient Computer Science major currently attending SRM IST. Aiming to leverage proven creative thinking, multitasking, and technical skills to successfully build amazing projects by being a part of your club. Frequently praised as hard-working by my peers, I can be relied upon to achieve the given goals

Projects worked on

- Made a Home Automation project using NodeMCU and Blynk App. The circuit is very simple to control home appliances securely from the smartphone through the internet.

Skills

- Ethical hacker experienced with kali linux
- C and python programming languages
- Web dev - HTML, CSS, Bootstrap, Learning JS

Interests

- Attending hackathons
- Building projects
- Learning new skills
